

I am writing to protest the LPFM expansion that will threaten the way my radio station, K-Love is heard on the FM frequency. K-Love serves a great service in my community. It provides me with a positive, encouraging radio station instead of the normal radio stations that provide no good family broadcasting. If K-Love were to be displaced by an LPFM broadcaster providing other programming, many people would be left without good Christian radio that provides for strong family values and uplifting music. I believe K-Love is providing a public service to allow anyone who is not a regular listener an opportunity to hear God's word at any time of the day or night. It provides a safe haven on the radio and is an essential part of my day. I believe in K-Love and I am a financial supporter of the station. If there weren't many others like myself K-Love would not be on the air right now. It is imperative that K-Love remain on the air to provide good radio in the midst of all the secular things that are on the radio today. Why should you take off a listener supported radio station that is paying for itself through the support of listeners? Please take these comments into consideration.
